About me

My formation motivation has been driven by the aim to help people through science and technological innovations, being very interested in field of human health. Also, since I discovered how fun and useful computational tools can be, I fell in love with them.

Therefore, this mixture of childhood dreams and passion has led me into pursuing a PhD position in a health-related area using computational tools.

Education and formation

2015 - 2019 Bachelor's degree in Biotechnology
At Francisco de Vitoria University (UFV), in Madrid, Spain. This B.Sc. was part of a double degree with a BSc in pharmacy.

2015 - Now Bachelor's degree in Pharmacy
At Francisco de Vitoria University (UFV) Currently finishing the TFG (Final Degree's Thesis).

2021 - Now Master's degree in Computational Biology
One-year MSc at Universidad Politécnica de Madrid.

Internships

2021 (Jun-Sept) Internship at Adam Mickiewicz University
Located in Poznań, Poland. There, I work with Professor Wojciech Karłowski, studying the evolutionary conservation of selected groups of noncoding RNA in *Marchantia polymorpha*.

2021 (April-June) Internship in La Zarzuela Hospital (Madrid)

2021 (Jan- March) Internship in a pharmacy

2019 (Jan-May) Internship at Tufts University
Located in Boston, USA. I had the opportunity to work in the laboratory of Professor John Leong, trying to understand the underlying mechanism behind the avoidance of the immune system by *Borrelia burgdorferi*.
